

About Us

healthsy.app

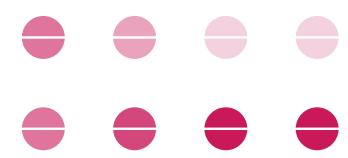

Who we are

HealthSy is a healthcare platform that caters to the needs of immediate and recurring healthcare services such as ordering medicines online through subscriptions, online doctor consultations, in-clinic appointments, home healthcare services, etc by simplifying the way that these healthcare services or rather processes are done by people on daily basis through technology.

Our Mission and Vision

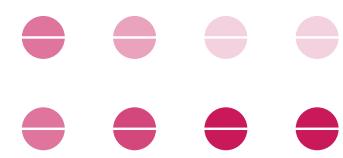

Our mission is to be your daily and go to healthcare partner for recurring and immediate healthcare needs. Since healthcare is very personal for all, we are striving hard to bring the best of both i.e. ‘Technology and Healthcare’ together through innovative solutions that can help simplify these healthcare services on one hand and help you save more money, time and energy on the other.

Our Core Principles The 3 A's

Affordability

HealthSy is a healthcare platform that caters to the needs of immediate and recurring healthcare services such as ordering medicines online through subscriptions, online doctor consultations, in-clinic appointments, home healthcare services, etc by simplifying the way that these healthcare services or rather processes are done by people on daily basis through technology.

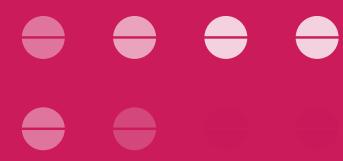

➡️ Accessibility

Most of the population does not have access to primary healthcare facilities as they are living in remote areas. Visiting a pharmacy or a clinic might be quite difficult for them. That is why we decided to deliver medicines to every nook and corner of the country including remote villages. Not just that, we wanted to save them from a long journey to the nearest clinic by offering online doctor consultations. Thanks to the advancements in the broadband sector which has penetrated almost every part of India, online doctor consultation has become very much feasible.

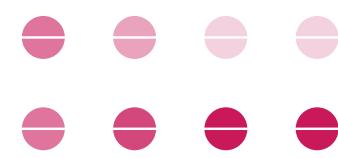

📅 Availability

We do not like the word ‘no’ and that is why we decided to tie up with retail pharmacies across the country where almost every medicine that you would need for your ailment is available or made available right at your doorstep. We also do not want you to look beyond HealthSy for any of your healthcare needs. We have partnered doctors who are available 24X7 to answer your health issues and our InstaDoc feature will help you connect with a doctor instantly anytime.

Order Medicines Online

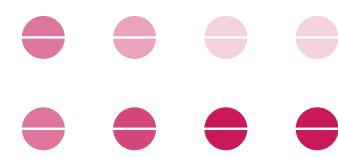

Ordering Medicines online was never this easy!

Is your usual medicine out of stock in the nearest pharmacy? Are you a senior citizen who is unable to walk to the pharmacy to get your health supplements? Do you find the pharmacy always crowded?

We at HealthSy ensure none of our customers face these troubles on a day-to-day life. We understand the importance of medicines in a person's life, and this made us embark on a mission to deliver genuine medicines at right time at your doorstep once you order them. We have better news. This service is available round the clock, and you do not have to wait for the daytime to order your preferred medicines and closing the doors of our service is something we really hate. Simply search for your medicines on our user application, add them to the cart and order them. It is indeed such a simple and hassle-free process.

Our mission to simplify your healthcare needs which has made us provide various benefits to our customers. One such benefit is subscribing to medicines or placing medicines orders

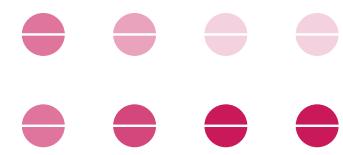

through a subscription model called “HealthSy Advantage Subscription”. We also remind you to replenish the medicines once it is on the verge of getting over. Ultimately, we are your healthcare partners and that is what partners do, to care. We want to allay even the teeniest of fears you have of receiving expired medicines or counterfeit medicines because we maintain strict policy control on all our partner retailers and thoroughly verify each product that reaches you. All this because we value your health more than anything.

Here are a few reasons why ordering medicines from HealthSy is the right choice –
